

REQUEST FOR TEMPORARY ELECTRICAL SERVICE

Date: _____

LOCATION ADDRESS: _____

NAME OF PROJECT: _____

BUILDING PERMIT #: _____ ELECTRICAL PERMIT #: _____

Please issue authorization for temporary approval on the electrical service conductors and service switch for the following purposes(s):

- Testing of appliances and equipment.
- To provide heat during the winter months to prevent freeze damage to water systems and equipment and including but not limited to painting or installing wallpaper.
- Temporary occupancy of the building by no more than ten (10) employees only for training or employees or stocking of merchandise.
- Other _____

Temporary power approval is requested for a period of _____ days.

We (Electrical Contractor, General Contractor and Property Owner) understand that this temporary approval is issued only for the above stated purposes(s) and only after the Inspector deems the service conductors are properly protected and the service equipment is properly made and grounding is complete. Furthermore, the City of Chamblee may, at it's option, refuse and/or revoke this authorization for any of the following reasons:

1. Violation of any Building, Plumbing, HVAC, Electrical or site development Codes or regulations.
2. Failure to complete any stage of construction and/or site improvements required by the City or DeKalb County in a timely manner consistent with good development practices.
3. Unauthorized occupancy or use of any part of the structure or building for which temporary approval for service is granted for any purpose other than normal continuing construction and requested purpose(s) stated above.

In return for the temporary approval, we hereby assume all responsibility and all liability for any use of electrical power during this temporary period.

If temporary power is revoked and electrical power is disconnected for any of the reasons listed above, we hereby agree to relieve the City of Chamblee and it's inspectors from any liability for damages or losses occurring from such action.
